## Document Scanning

AAS can convert your paper files into digital images. Let us help you go paperless.

- Scan and index your documents and materials in any format.
- Ability to search quickly for information within the contents of a file.

Our online backup service enables businesses to easily backup, restore, and access their online backup data. Our software automatically and continuously (24/7) monitors selected folders looking for data additions and changes. When a change is detected, it is immediately extracted, compressed, encrypted and then securely transferred to our secure online backup data center.

**Continuous:** Backup online automatically and continuously throughout the day (24/7).

**Convenient & Simple Management:** Manage all backup operations for local and remote servers from one centralized administrator and from any desktop browser.

**Secure & Off-Site:** Your data is always safe. Your files are encrypted using state-of-the-art, 256 bit AES encryption and stored in redundant, secure data centers located hundreds of miles apart from each other.

**Fast Restore:** Files are restored in minutes.

**Economical:** No installation costs and equipment to buy.
